

Works Test Certificate

ACO Passavant Guss GmbH

Aarbergen, 15.11.2016

Subject :
ACO CityTop P manhole cover, load class D400
Clear opening Ø600 mm
with Bituplan-frame

The manhole cover mentioned above is according to DIN EN 124 / DIN 1229. The manhole cover is suitable for installation areas class D400, i.e. carriageways of roads including pedestrian streets, hard shoulders of roads and parking areas for all kind of road vehicles.

The manhole cover consists of a floating frame of cast iron and a cover of cast iron with or without ventilation holes.

ACO Passavant Guss GmbH is certified according to DIN ISO 9001.

The manhole covers are subject to a continued internal quality control. The under DIN EN 124 required external quality control takes place by the "Materialprüfamt der Universität Kaiserslautern".

Consequently, a constant quality and the compliance of the required properties, claimed within DIN EN 124 and DIN 1229, is guaranteed.
