

Works Test Certificate

ACO Passavant Guss GmbH

Aarbergen, 08.08.2016

Subject :
ACO manhole cover SAKU
Load class B125
clear opening 600 mm
article 11873

The manhole covers mentioned above are according to DIN EN 124 / DIN 1229. They are suitable for installation areas load class B125, i.e. Pavements, pedestrian areas and similar surfaces, car parks and parking decks.

The manhole cover consists of a frame made of PP/GF with concrete and a cover made of PP/GF.

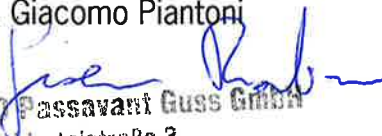

ACO Passavant Guss GmbH is certified according to DIN ISO 9001.

The manhole covers are subject to a continued internal quality control. The under DIN EN 124 required external quality control takes place by the "Materialprüfamt der Universität Kaiserslautern".

Consequently, a constant quality and the compliance of the required properties, claimed within DIN EN 124 and DIN 1229, are guaranteed.
